The First Barons' War (1215–1217) was a civil war in England between King John and a group of rebellious barons who were supported by *Prince Louis of France (later Louis VIII)*. The war was a direct result of the barons' dissatisfaction with King John's rule, particularly his heavy taxation, arbitrary justice, and failure to uphold the rights of the nobility. The conflict is closely tied to the signing of the Magna Carta in 1215, which attempted to limit the king's powers but ultimately failed to prevent the war.

### War Strategies of the First Barons' War (1215–1217)

During the First Barons' War, both sides—***King John and his royalist supporters*** versus the rebel barons **allied** with Prince Louis of France—employed distinct strategies to gain control over England.

#### Royalist Strategy (King John & His Supporters)

- Castle Defense:** King John relied on a ***defensive strategy***, strengthening castles and fortifications to prevent rebel forces from easily capturing key locations. This forced the rebels into prolonged sieges rather than open battles.
- Guerrilla Warfare & Raids:** Rather than engaging in large-scale confrontations, John's forces used hit-and-run tactics to harass and weaken the enemy. These small raids disrupted the rebels' supply lines and momentum.
- Diplomacy & Reconciliation:** After King John's death in 1216, his supporters, led by Regent William Marshal, shifted tactics. Instead of relying solely on military action, they focused on winning back the loyalty of the rebel barons by offering fairer governance under the young King Henry III.

#### Baronial & French Strategy

- Control of London:** The rebel barons understood the strategic importance of London and seized the city in 1216, using it as their stronghold.
- Foreign Reinforcement:** The barons invited Prince Louis of France to claim the English throne, bringing French military support into the conflict. This gave the rebels additional troops and resources.
- Castle Sieges:** To weaken the royalist position, the rebels attempted to capture strategic castles, but this was a slow and difficult process due to strong fortifications.

#### Decisive Battles & Outcome

- In 1217, the war shifted in favor of the royalists after two key battles:
  - The Battle of Lincoln (land) saw William Marshal defeat rebel forces.
  - The Battle of Sandwich (naval) cut off French reinforcements, weakening Prince Louis' position.
- As a result, Prince Louis abandoned his claim and left England, and the barons accepted Henry III as king. The war ended with the reissue of Magna Carta, helping restore stability.

### \* Key Points to Remember for the Exam

#### War Strategies of the First Barons' War (1215–1217)

##### Royalist Strategy (King John & His Supporters)

- 🏰 Castle Defense – Strengthened fortifications, forcing prolonged sieges.
- ⚔️ Guerrilla Warfare – Used small raids instead of large battles.
- 🤝 Diplomacy – After John's death (1216), William Marshal won back rebel barons' loyalty.

##### Baronial & French Strategy

- 🏰 Control of London – Captured the city in 1216 as their base.
- 🇫🇷 French Reinforcement – Invited Prince Louis of France to claim the throne.
- 🏰 Castle Sieges – Attempted to weaken royalist control but faced difficulties.

##### Decisive Battles & Outcome (1217)

- ⚔️ Battle of Lincoln – Royalists defeated rebels on land.
- 🚢 Battle of Sandwich – French reinforcements were cut off at sea.
- 👑 End Result – Prince Louis withdrew, Henry III became king, and Magna Carta was reissued.

### \* Flashcards for Quick Revision

Flashcard 1: Why did the war start?

💡 King John ***rejected*** Magna-Carda, angering the barons, who rebelled and invited Prince Louis of France to take the throne.

Flashcard 2: What was King John's military strategy?

💡 Castle defense, small raids, and avoiding open battles.

Flashcard 3: How did the barons fight back?

💡 Captured London, allied with Prince Louis, and attempted castle sieges.

Flashcard 4: What happened after John's death?

💡 Regent William Marshal used diplomacy to win back the barons.

Flashcard 5: What were the two major battles in 1217?

💡 Battle of Lincoln (land) & Battle of Sandwich (naval).

Flashcard 6: What was the final outcome of the war?

💡 Prince Louis withdrew, Henry III became king, and Magna Carta was reissued.
